

Dystan® Bolus

agilan® complementary feed

with spruce needles, wormwood, balm, chamomile
and pure apple pectin

For calves

Composition

Apple pectin (20%), powdered milk, psyllium husk ground, sodium bicarbonate, products from the processing of plants (needles) (9%), dextrose, potato starch, chamomile (0.5%)

Analytical constituents

Crude protein	7.0 %
Crude fat	3.5 %
Crude fiber	2.5 %
Crude ash	18.8 %
Sodium	3.7 %

Content of additives per kg

Compounds of trace elements:

Copper as copper (II) sulphate, pentahydrate (3b405)	1,500 mg
Zinc as zinc sulphate, monohydrate (3b605)	8,000 mg
Manganese as manganous (II) sulphate, monohydrate (3b503)	6,000 mg

Flavouring compounds:

Melissa officinalis 70/524/EEC; CoE 280 (extract)	4,000 mg
Artemisia absinthium L. 70/524/EEC (tincture)	1,000 mg

Preservative:

Propionic acid from sodium propionate (1k281)	23,000 mg
---	-----------

Recommended use

For appropriate feeding with indigestion such as altered feces consistency, flatulence and general lack of appetite.

Feeding recommendation

Add Dystan® Bolus 7.0 g 2 - 3 x daily as needed, administer with commercial donors orally.

Feeding instructions

Due to the increased content of trace elements compared to complete feed, this complementary feed may only be used up to max. 1.0 % of the daily ration fed to calves. The levels of zinc, copper and manganese in the complete feed must be taken into account. The simultaneous use of different organic acids or their salts is contraindicated where one or more of them is used at or near the maximum permitted content.

Storage

Store in a dry place. Seal container well after use, so that there is no moisture. Shelf life guarantee is only valid for unopened packages. Store dry and at room temperature.
