

# Nabi-Bolus

agilan® Complementary feed

Mineral feed

To increase the desire to drink

For calves

## Composition

Sodium bicarbonate  
Sodium chloride

## Analytical constituents

Crude protein	1.7 %
Crude fibre	0.0 %
Crude fat	0.3 %
Crude ash	58.1 %
Sodium	25.1 %
Calcium	0.0 %
Phosphorus	0.0 %

## Content of additives per kg

### Preservatives:

Propionic acid from sodium propionate (1k281)	1,538 mg
Acetic acid from sodium diacetate (1a262)	10,000 mg

## Recommended use

A reduced desire of calves to drink as a result of metabolic acidification can be counteracted by neutralization with sodium bicarbonate as a buffer.

## Feeding advice

The simultaneous use of different organic acids or their salts is contraindicated where one or more of them is used at or near the maximum permitted content.

## Feeding recommendation

Give 1 bolus (9,5 g) immediately at the first sign of a changed faecal consistency. Add 1 delayed after the next 3 meals. Always offer fresh water for free disposal.

## Storage

Shelf life guarantee is only valid for unopened packages. Store dry and at room temperature.
